OH NO!!! My computer is becoming slow..... LETS ASK HIM ABOUT THIS.

Hi, my computer is becoming slow. Can you help me fix it?

*it seems like memory leak, thats why your PC is slowing down.*

Then how can we fix this situation?

*Easy, I know a solution that is free and is effective in this situation . Its VALGRIND .*

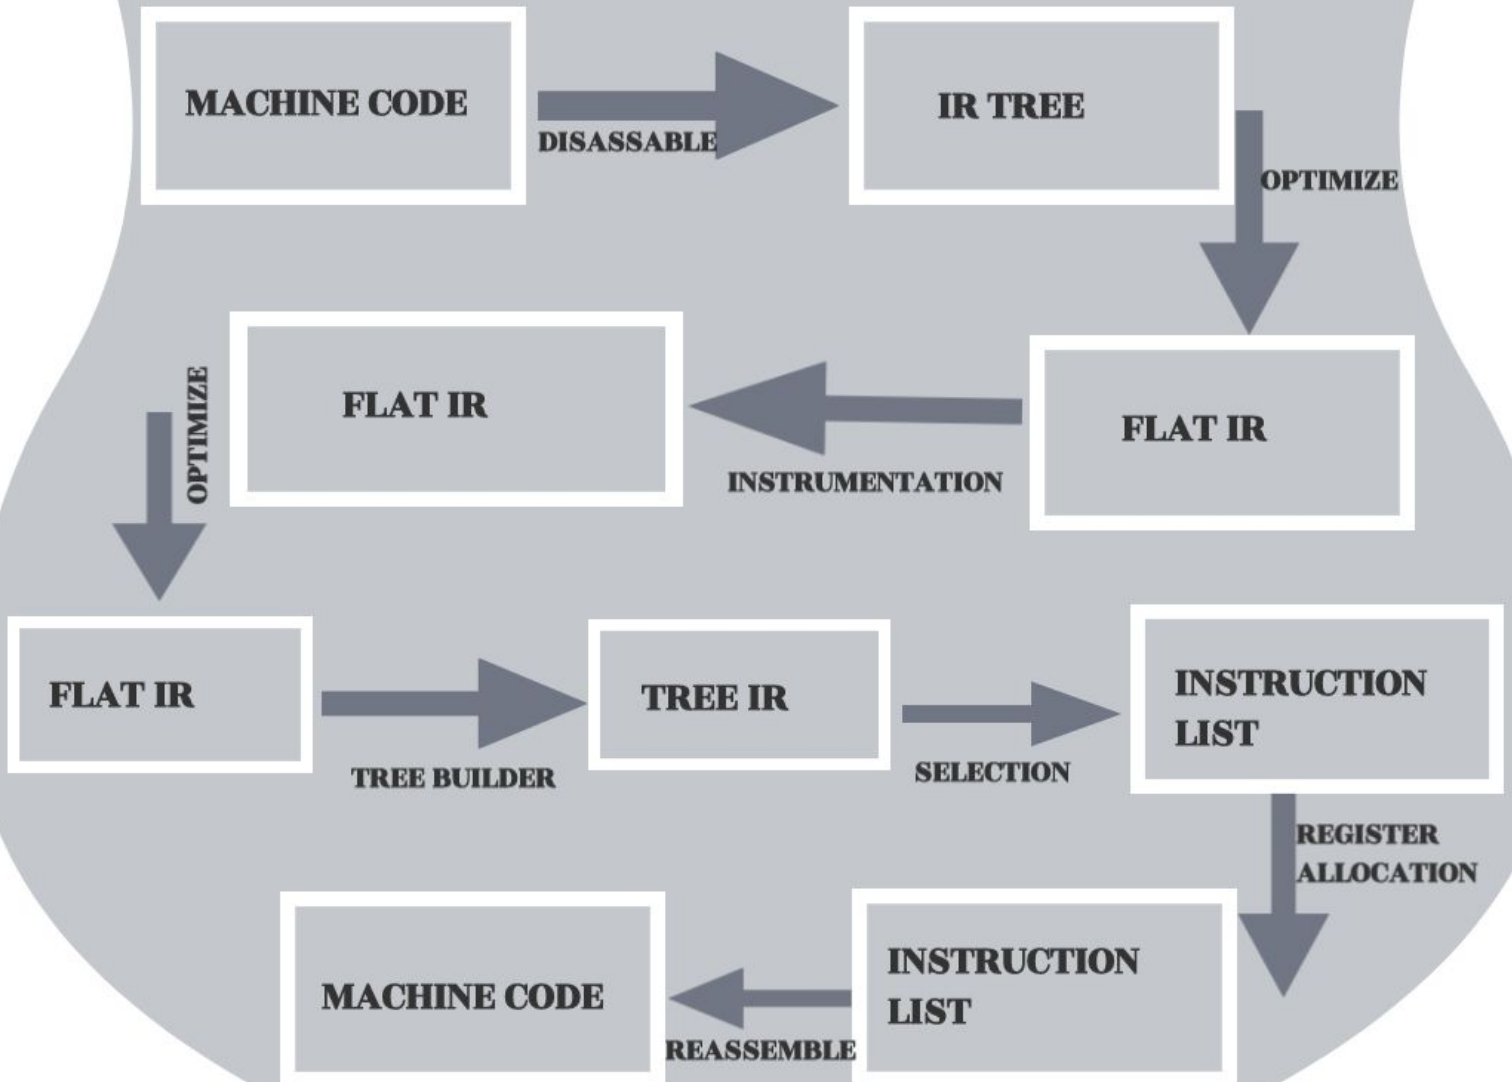

VALGRIND!!!?? But how does it works?

*Lets see!!*

# VALGRIND

*These are the main 8 phases of Valgrind and one more thing Valgrind is carried on in virtual sandbox and all the instructions, debugging and profiling is carried on in there.*

Thanks bro!
