SET B

Name: _____ Roll No.: _____

Instructions

- Write your name and roll number before starting.
- This paper has 11 questions in 3 parts, for a total of 17 marks.
- Record your final MCQ answers in the answer grid below — the grid is what gets graded.

MCQ Answer Grid

Q	4	5	6	7	8	9	10
Ans							

Part A — Question Types

10 marks

Q1. A subjective question with a printed answer space and a grading rubric. [3 marks]

Q2. A booklet-style subjective question: `answer(none)` prints **no space** on the paper, but the key still shows the model answer. [2 marks]

Q3. A fill-in-the-blank: water is H_2 _____, and math answers work too: $e^{i\pi} = \text{_____}$. [1 mark]

Q4. Two ✓ options turn a question into a multi-select automatically: *(Select all that apply.)* [2 marks]
(A) Also incorrect
(B) Incorrect
(C) Correct A
(D) Correct B

Q5. A plain multiple-choice question — the ✓ marks the correct option, and option order shuffles differently in every set: [2 marks]
(A) This one
(B) Nor this one
(C) Not this one

Part B — Option Control

4 marks

- Q6.** “None of the above” pins itself to the last position in every set — no annotation needed: *[1 mark]*
(A) A real answer
(B) Another distractor
(C) None of the above
- Q7.** These options keep their authored order in every set (for I/II/III progressions): *[1 mark]*
(A) I only
(B) I and II
(C) II and III
- Q8.** Two-column options via `\#opts(columns: 2):` *[1 mark]*
(A) South (B) North
(C) West (D) East
- Q9.** Compact inline options via `\#opts(compact: true)` — pick 4: *[1 mark]*
(A) 4 (B) 3 (C) 5 (D) 6

Part C — Stability*3 marks*

-
- Q10.** This question’s identity is frozen with `\#qid("...")`, so editing its wording never *[1 mark]*
reshuffles its options.
(A) Stable
(B) Equally stable
- Q11.** This part is marked `\#section(shuffle: false)`: its question order is identical in *[2 marks]*
every set. When would you use that?
